## Teeth Whitening FAQs

### What is bleaching or teeth whitening?

Bleaching or teeth whitening is used to correct discoloration of the teeth by removing the brown and yellow staining.

Venus White is for patients who desire a brighter smile.

### What causes discoloration of the teeth?

Tooth enamel discoloration can be caused by staining, aging, or chemical damage to teeth. Some of the more common causes of teeth discoloration are medications, coffee, tea, colas or cigarettes.

### How long does teeth whitening last?

Though not a permanent solution, teeth whitening is very effective with results that can last for years but varies based on personal habits. Touch-up kits can be used every 6–12 months to enhance and maintain whitening results. Plus, Venus White has special maintenance products such as toothpaste and a touch up brush to help you keep a lasting bright smile.

### What are the advantages of whitening your teeth?

People typically have their teeth whitened to improve their appearance. When you have a brighter smile, you tend to smile more often and your confidence shines through!
